Case of Subacute Rheumatism.

MRS. LOCAMANN, a German lady, residing at No. 224 Pearl-street, has been for some time afflicted with subacute rheumatism about the joints of both upper limbs, and for the last three weeks since she was attacked with a violent fever, which, in connection with the rheumatism, had nearly reduced her to the verge of the grave. At this time the Lumbis triplicis was administered to her in doses of a table-spoonful every four hours. She experienced relief within a short time after commencing its use, and within two days she was quite cured, and able to resume the enjoyment of good health.
